## SERVICES

### CATERING SERVICES

Our Catering division is reputed for its ability to deliver some of the best catering services in the field covering everything from industrial catering to operating large & medium sized cafeterias. The division's personnel are regularly trained and kept up-to-date with food-handling and hygiene standards, and menus are carefully planned and prepared taking into consideration nutrition factors and ethnic diversity.

#### SERVICES OFFERED

- ▶ Catering services to project sites and camps.
- ▶ Catering services to the employees of industrial and commercial organizations of different categories (Western/European, Saudi, Arab, Filipino, Pakistani, Indian, etc.)
- ▶ Operation of industrial and residential compounds' cafeterias.
- ▶ Packed food delivery.

### BACKFILLING MATERIALS

MODERN INVENTION provides different types of soil to mining sites, construction sites and agricultural farmlands. For construction, we create a perfect mixture of soil which holds concrete firmly together and strengthens the foundation. We also provide separate soil for concrete mixing or bricklaying.

#### TYPES OF MATERIALS

- Normal Sand
- Clean Sand
- Gravel (all sizes)
- Sub Base
- Base Course
- Select Fill
- Marl
- Rip Rap

## SCAFFOLDING SERVICES

At MODERN INVENTION, we pride ourselves on providing dependable scaffolding systems that are manufactured using heavy-duty materials to meet the industry's high safety standards. We provide scaffolding rentals or scaffold erection services to a number of different industries including power plants, refineries, pulp and paper, petroleum chemicals, and manufacturing. Our scaffold rental services are flexible: we can deliver all the necessary materials to your job site and you can assemble the scaffolding, or we can deliver, assemble, and dismantle the scaffolding for you. Our scaffolding services can also be combined with any of our other services, such as thermal insulation or refractory in order to minimize your contract management.

## HYDRO JETTING SERVICES

MODERN INVENTION is committed to providing the highest quality of work with the highest degree of safety for our valued customers, employees, and the communities they support. Our objective of excellence will be realized through rigorous training, thorough planning, and flawless execution. In the field of high-pressure water jet cleaning, hand-operated equipment like spray guns and lances, as well as mechanical equipment with rotating washes, drilling and lance equipment, and sewage cleaning equipment, are used by MODERN INVENTION. By this technology, equipment like heat exchangers, condensers, reactors, storage tanks, furnaces, transport pipelines, sewage systems, towers, vessels, etc. can be cleaned in an efficient way.
